Tracking Federal Regulations in GPO's Federal Digital System (FDsys)

You are invited to an educational webinar on Tracking Federal Regulations in GPO's Federal Digital System (FDsys)! Join GPO on Thursday, June 21, 2012 at 1:00 pm EDT as we offer a 45-minute course in utilizing FDsys resources to track Federal regulations through basic and advanced search techniques. The following FDsys regulatory resources will be explored: The Federal Register, The Code of Federal Regulations, The List of CFR Sections Affected, and the Unified Agenda.

Prior completion of the "Navigating Federal Government Information Using FDsys" webinar or previous experience with using FDsys is strongly encouraged prior to participating in this webinar.

If you would like multiple staff members to view the webinar, GPO suggests exploring the possibility of viewing it in a meeting room in your library that has computer projection capability.

The webinar is free, but participants must **register here** to attend the webinar. Once completed, you will receive an email confirmation, which will include instructions for joining the webinar.
